HydraHeat Split

Rinnai

Smarter hot water for modern living

The HydraHeat Split delivers reliable, energy-efficient hot water with flexible installation options to suit a wide range of New Zealand homes.

Using advanced heat pump technology and environmentally friendly R290 refrigerant, the HydraHeat Split extracts heat from the air to warm your water—efficiently, quietly, and sustainably.

Designed with an outdoor heat pump unit and indoor storage cylinder, the split system is ideal for homes with limited space or where the outdoor unit can be located away from the main living area.

Built by Rinnai, New Zealand's hot water experts, the HydraHeat Split is a smarter choice for a more sustainable future.

Flexible installation
Ideal for homes with limited space or separation requirements.

Environmentally friendly
Uses R290 refrigerant with a low Global Warming Potential (GWP) of 3.

Built-in Wi-Fi
Control from anywhere, anytime.

High efficiency
Helps reduce energy bills and lower emissions.

Quiet operation
Designed to run quietly, ideal for residential areas.

TECHNICAL SPECIFICATIONS		HYDRAHEAT SPLIT
Storage Capacity	L	180 / 270
Rated Heating Capacity @ 19°C	kW	2.35
Power Input (Heat Pump)	kW	0.55
COP @ 19°C		4.27
Refrigerant Type		R290
Charge Amount	kg	0.15
Max Water Temperature (Heat Pump)	°C	60
Max Water Temperature (Boost)	°C	75
Electrical Supply	V/Hz	220–240 / 50
Total Max Input Power	kW	2.25
Rated Current	A	9.8
Indoor Unit Dimensions (H x W x D)	mm	See table
Outdoor Unit Dimensions (H x W x D)	mm	702 x 915 x 370
Net Weight (Empty)	kg	See table

Specifications are subject to change without notice.

Indoor Unit
(180L / 270L)
